

## Pollution Collector

Make your own electric bus pollution collector!

1. Cut out your pollution collector from the bus pattern.
  2. Cut a window in the middle of the bus.
  3. Cover the back of the window with a white sticker or strip of packaging tape. The sticky side will face up. Hint: Don't touch the sticky part!
  4. Punch a hole at the top of the collector.
  5. Tie a piece of string through the hole at the top.
  6. Choose a location outside to hang your collector.
  7. Wait a few days. Take down your collector.
  8. Inspect it with a magnifier.
- What do you see? \_\_\_\_\_
- What's in your air? \_\_\_\_\_
